“We need a paradigm shift, and I think it’s beginning to occur. Nutrition needs to be looked at, not as a means of preventing specific deficiency diseases, but as a means of contributing to the overall health of the person and his or her resistance to chronic diseases.”

Holistic Alternatives ~Richard P. Huemer, M.D.

“I believe that you can, by taking some simple and inexpensive measures, extend your life and your years of well-being. My most important recommendation is that you take vitamins every day in optimum amounts, to supplement the vitamins you receive in your food.”

~Linus Pauling, Ph.D., Two-time Nobel Prize Laureate
